

Certificate

Fraunhofer IPA hereby certifies that the pneumatic spraygun

Spraycolor 3C

applying an air cap **12L** ,
applying a fluid nozzle size **1,2 mm** ,
a gun inlet pressure of **1,80 bar** ,
a working distance of **200 mm** and a
resulting paint feed of **280 g/min of a water-based 1-K-paint material**

has been tested according to **DIN EN 13 966 - 1 (VDMA-Einheitsblatt 24 366)**

The referring test protocols have been handed out to the manufacturer.

A transfer efficiency of 88 % was found.
